

ACCESSORY KIT INSTALLATION INSTRUCTIONS

LOWER DOOR

GENERAL

This instruction applies to accessory doors used on DFAA, DFAH, DGAA, DGAH, DGPA and DGPH manufactured housing furnaces shipped from the factory without doors. The furnace installer must apply labels to the doors to provide the end user with important safety and operational information.

INSTALLATION

1. Remove Label Packet from furnace burner compartment. See Figure 1.
 - a. DGAA, DGAH, DGPA and DGPH. Attached to gas valve.
 - b. DFAA and DFAH. Attached to oil burner.
2. Follow instructions provided in Label Packet.
3. Install doors on furnace.
