

### REPLACEMENT SPST COMBINATION FAN & LIMIT CONTROL 3" OR 7" ELEMENT EXTENSION

These universal replacement combination fan and limit controls are equipped with 1/4" spade quick connect terminals, and an adjustable knob to permit temperature setting to conform to the unit being replaced.

In making the replacement, simply check the cut-out temperature of the combination fan and limit control that is removed from the furnace, and set the adjustable blower pointer and limit slide on the replacement unit to conform to these temperature settings.

#### 3" ELEMENT EXTENSION

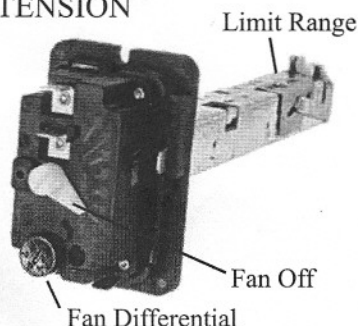

FAL3C-05TD-120-A
